OILED STREETS ARE REQUESTED BY MANY PEOPLE

Board of Works Has Requests
From Residents Nearly
Every Day.

Traction Company Will Now
Sprinkle Tracks.

CALDWELL BRIDGE REPAIRED.

That the oil being used on the streets of Paducah is a success is demonstrated by the great many petitions the board of public works is receiving every day from residents asking that their street be sprinkled with it. When the first oil was spread, there was a little kicking, which lasted probably a day, or until the value of it was plainly seen, and since then nearly every portion of town has asked for oiled streets.

The board received another ear of oil today, which will be the last used this year, and will oil the following streets:

Broadway, from Fountain avenue to the Illinois; Fountain avenue from Broadway to Monroe; Sixth from Clay to Trimble; Monroe from Ninth to Twelfth; Fifth from Kentucky avenue to the N. C. & St. L. depot.

The traction company, at the request of the board of works will now sprinkle its tracks on the entire system, excepting on the improved streets. It will try a tar composition it has, and if this is not satisfactory, oil will be used. This will do much to allay the dust, as nothing stirrs up as much as the swiftly moving street cars.

At the request of the board of works, the I. C. and the N. C. & St. L. will lay plank in their tracks at every street crossing, and the work has already been started.

The board of public works has done splendid work this season on all of the streets, and will have them in good condition for the winter weather. Today the lumber was received to repair Caldwell street bridge and the work will be done at once.

URGES UNIONS TO "GO SLOW."

Building Trades Head Deplores Haste in Sympathy Strikes.

Tampa, Fla., Oct. 13.—Conservatism of action on the part of the labor organization under his supervision was the keynote of the annual address of James Kirby, president of the building trades department of the American Federation of Labor, at the second annual convention of the department.

"While we cannot for one moment surrender our right to take sympathetic action where a sister organization is in peril," he said, "yet oftentimes building trades councils are prone to hasty action on the theory that quick action must be taken or the job on which the work is being done may be completed."

"Admitting that on small buildings this may be true, I am of the opinion that it would be better to complete the job on which the contention arose, providing a repetition can be prevented, than to endanger the dissolution of the council."

NEW SUFFRAGE PLANS BARED.

Mrs. Belmont Will Try to Capture New York Legislature.

Syracuse, N. Y., Oct. 13.—W. R. Hunter, of New York, arrived here as a personal representative of Mrs. O. H. P. Belmont in the suffrage movement. He came to talk with woman's rights advocates as a part of a general plan evolved by Mrs. Belmont to capture the next assembly in behalf of woman suffrage.

Mr. Hunter says Mrs. Belmont realizes that the methods hitherto employed are useless and that the campaign must be systematic and must have preparation, guidance and system.

As a result she has instituted a new form of campaign, the object being to defeat every nominee for the legislature who does not favor her cause.

BRAKES FAIL; ONE MAN KILLED.

Seven Others Hurt in Mine Accident at Stoney Fork, Ky.

Middlesboro, Ky., Oct. 13.—One man was killed, two probably fatally injured and five others seriously hurt as a result of the brakes on the incline failing to hold at the mine of the Edgewood Coal and Coke company, at Stoney Fork, nine miles from here. The dead man is C. O. Hardin, superintendent of the mines of the Edgewood company. The probably fatally injured are James White and James Wilhoite.

PITTSBURG WINS FIFTH GAME OF THE SERIES TODAY BY HEAVY HITTING, BASE RUNNING

Indulge in Another Hard Hitting Combat, and Tigers Compelled to Switch Both Pitcher and Catcher.

Pittsburg, Oct. 13.—Miller, the Pirate second baseman, was this morning fined \$50 for talking to Klem after a third strike yesterday. Donovan, the Detroit twirler, was fined \$25 for arguing when he was expelled from the field. The weather is cold and a big crowd of 22,000 is out, but not as many as saw the former games here.

Pittsburg, Oct. 13.—There is a great crowd on hand today to see the fifth game in the world's series. The betting is even after Detroit's victory yesterday. The batteries are: Detroit, Summers and Stanage; Pittsburg, Adams and Gibson. Umpires, O'Laughlin and Johnstone.

The Game in Detail.

COMMERCIAL CLUB DINNER A SUCCESS

Twenty-five members attend first of series.

AND INTERESTING TALKS ARE FEATURES OF THE EVENT.

The first "Get Togethers" dinner of the Commercial club, which was held at the Palmer House, last night was a great success indeed. Twenty-five of the fifty members of the association sat down to the splendid dinner that Host Stewart Simont had prepared, at 6:30, and after the coffee and cigars were served the members engaged in informal talks on subjects of interest to the club.

President James C. Utterback presided in his usual happy way, and some very entertaining speeches were made by the following gentlemen: President Utterback, Earl Palmer, Jos. L. Friedman, C. S. Bookwalter, H. S. Wells, J. T. Donovan, Chas. K. Wheeler, W. F. Paxton, Saunders V. Fowler, F. L. Redhead, J. L. Wolf, Mohr Michael, S. B. Caldwell, H. A. Peter, John J. Berry, George McCandless, W. B. Hummel, Harry R. Hank, H. R. Lindsey, Wallace Wallace and W. B. Cornelison.

In his opening address, Mr. Utterback heartily approved the idea of having the dinners regularly, and said that they afforded the members an opportunity to get together to exchange and interchange ideas, to form better acquaintances, and work out the problems that are constantly coming up for the general advancement of the commercial interests of the city. "We should work as one man for Paducah's good, and while we should not pay any one to locate here, we should strive to make the city so attractive and such a desirable place in which to live, that many will not be content to stay away, but will be attracted to our city for this reason," he said.

Mr. Utterback gave way to Earl Palmer, former president of the club, who spoke at length on the advantages of co-operation, the prospects ahead for the city and the Commercial club.

It was decided to have another dinner at the Palmer on the 26th, and it will be at the noon hour.

The president appointed Charles K. Wheeler, Jos. L. Friedman and Earl Palmer as a committee to

KEY WEST ASKS FOR AID TODAY

Every House There Was Practically Demolished By Storm.

New Orleans, Oct. 13.—A wireless this noon says Mayor Fogarty of Key West has issued an appeal for aid. He says practically every house there was demolished or damaged and those who still have homes can scarcely care for their own families, and starvation and distress stare the people of Key West in the face.

GEORGE HARRIS, OF BOGALUSA, LA., DIED MONDAY.

Mr. Henry Harris, of 1691 Broadway, was called to Bogalusa, La., last night by the death of his brother, Mr. George Harris, who died there Monday after an operation for appendicitis. A telegram announcing the death was received by Mr. Harris at Central City. The deceased is a brother of Mrs. Robert Brailsford, of 2304 Monroe street. His father, Mr. W. J. Harris, of Cuttawa, Ky., also survives him. The body will be brought to this city tomorrow night and the funeral services held at the residence. Burial will be at Oak Grove cemetery Saturday afternoon at 3 o'clock.

SUFFRAGETTES SENT TO JAIL.

British Noblewoman and Wife of a Former Editor Must Serve a Month Each.

New Castle, England, Oct. 13.—Sentences of a month's imprisonment each were imposed upon Lady Constance Lytton and Mrs. H. N. Brailsford, who were arrested here Saturday following a suffragettes' demonstration against David Lloyd-George, the chancellor of the exchequer.

Mrs. Brailsford is the wife of a former leader writer on the Daily News who resigned his editorial position a week ago as a protest against the government's treatment of suffragette prisoners.

The demonstration Saturday took the form of a rush upon the chancellor as he was making his way to his motor car from the Palace theater, where he had addressed an audience on the subject of the budget.

EDITOR IS SENT TO PRISON.

German Publisher and Woman Detain Both Are Sentenced for Blackmail.

Berlin, Oct. 13.—The ways of the so-called "Revolver Journalism" in Germany have been disclosed luridly during the trial of Herman Dashed, editor of the weekly journal, Die Wahrheit. Dashed was convicted of blackmail and sentenced to eighteen months' imprisonment and the suspension of his civil rights for three years.

A woman detective employed by Dashed also was found guilty of the same charge and condemned to eight months' imprisonment.

Die Wahrheit is owned by Herr Bruhn, a member of the reichstag and an anti-Semite. From the testimony it appeared that a long list of persons of rank and wealth had been threatened with scandalous publications, among the number being one of the Princes Hohenlohe.

FALL FROM TOY WAGON CAUSES SUDDEN DEATH.

Cleveland, Oct. 13.—Dr. Cook, who is here, scoffs at the Peary charges. He says he told the Eskimos to say to Peary he never was far north. He believes they marked out a route on the map only showing the southernmost part of the trip. He says Peary's action, but is not worried.

TAFT FATIGUED

BY BEING COMPELLED TO LISTEN TO LONG SPEAKER.

Yuma, Ariz., Oct. 13.—Taft arrived here this morning, fatigued by the hot, dusty weather. He speaks today at Maricopa, Tempe, Phoenix, Wickenburg, Kirkland, Prescott and Ashfork. He was compelled to listen to a long-winded speaker an hour and half and is fatigued. A member of the party said this morning: "The society for prevention of cruelty to animals is necessary to save his smile."

HE WILL HAVE A FAST BOAT.

Chicago, Ill., Oct. 13.—Sir Thomas Lipton is still hoping the New York Yacht club will so modify its rules so he can make his fourth challenge. If they are acceptable he is arranging to leave Saturday for New York to discuss phases of America's cup. He says the rules are now unfair. That Americans can build a strictly racing yacht, while the English must be able to cross the ocean or have to be carried on a freighter in parts. He says he has a design for a yacht that will be faster than the former Shamrocks.

RALLY OF GROWERS AT CARLISLE.

FALL FROM TOY WAGON CAUSES SUDDEN DEATH.

Glasgow, Ky., Oct. 13.—Dulany, the bright little 5-year-old son of Mr. and Mrs. Lynn Carr, died here of spinal meningitis superinduced by a fall from a toy wagon. His death was so sudden the parents are almost prostrated. Mrs. Carr was formerly Miss Maud Oldacre, daughter of W. C. Oldacre, head bookkeeper of the Otter & Co. wholesale grocery firm, of Louisville, and has many relatives and friends in that city.

PASTOR ATTACKS GOV. BROWN FOR LENITY IN LIQUOR FIGHT.

Atlanta, Ga., Oct. 13.—Irritated by the flagrant violation of the prohibition law, the Rev. Dr. Broughton, pastor of the leading Baptist church in Atlanta, declares Gov. Joseph M. Brown should enforce the law or resign his office.

Let the governor take a hand in Savannah and Augusta, and compel them to obey the law," said Dr. Broughton. "Savannah and Augusta have no right to defy the law, and the state has no right to allow them to do it.

"The state executive should interfere, and if that doesn't do any good, he should send the state militia there.

And if he has no right to do that, he should call the legislature together and pass more laws, and if he can't do that he should resign and let Comer, of Alabama, come over here.

"Alabama defied the prohibition law, but Comer called his legislature together and passed a law that has made the large cities of Alabama as dry as any country district. Let Governor Brown do likewise, or quit."

MRS. M. J. HINES DIED THIS MORNING.

Mrs. M. J. Hines, aged 76 years, widow of the late J. H. Hines, died of dropsy at 9:30 o'clock last night at her home near Massac. She was a member of the Baptist church and a good Christian woman with a large list of friends. Surviving her are one daughter, Mrs. Ellen Watterson, and two sons, Messrs. J. S. and J. W. Hines, of Massac. The funeral was held this afternoon at 2 o'clock and burial at the Massac cemetery.

RIOTS BREAK OUT IN MADRID FOLLOWING THE EXECUTION OF PROFESSOR FERRERA TODAY

Many Plots Have Been Unearthed—It is Believed Attempts Will be Made on King's Life.

London, Oct. 13.—A dispatch to a London paper from

**Explained by Anty Drudge.**

Little Miss Rompabout—“Just look, mamma, I tore my frock.”

Mother—“Good gracious, and that frock just new! Only washed twice!”

Anty Drudge—“Just those two washings made the tear possible. You boiled the frock, as you do all your clothes, and that softened and weakened its fiber. If you had used Fels-Naptha in cold or lukewarm water, the fabric would not be half rotten and ready to give away the first time it caught in anything.”

White clothes are made of vegetable fibres, cotton or flax. Boiling affects them the same way it does other vegetable matter, as potatoes or cabbage. It softens them and weakens the fibre. Boiling will soften even hard wood.

By this you can easily see how your clothes will wear out quicker and tear more easily if you boil and hard-rub them. Wool, which is an animal fibre, is softened just as the fibre of meat in boiling. Fels-Naptha will cleanse your clothes in cold or lukewarm water without any boiling or hard rubbing, and there isn’t a single thing in it that will harm the goods.

Your clothes will wear twice as long, and they’ll be whiter and cleaner all the time. Try a cake of Fels-Naptha and see. But use it the Fels-Naptha way, according to the simple directions on the red and green wrapper. They’ll tell you how to wash all kinds of clothes with Fels-Naptha; wash dishes, clean floors and do many other things with it.

DETROIT HIT WHEN THEY COUNTED AND OUTPLAYED PIRATES AT EVERY STAGE.

THE ODDS NOW ARE EVEN.

DETROIT, Oct. 13.—Detroit defeated Pittsburgh, 5 to 0, and evened up the count in the world’s championship series, each now having two victories. The temperature was at 34 degrees but 17,036 persons braved the freezing blasts and the Detroiters comprising the great majority of the spectators felt well repaid.

The American League champions outclassed their rivals in every department of the game and the pitching of George Mullin was one of the brightest hits in the baseball history of Detroit. There never was a moment when Mullin was not absolute master of the situation and was at moved the runners to third and second best with the men on bases. Four hits represented the ability of the at third base received much unfavorable comment. Then came the made in the same inning.

A Great Feat.

Mullin made a feat in the third inning that will live long in the annals of baseball. In the third inning he struck out the mighty Wagner, with two men out and men on second and third. That was a mighty feat, but just previously he had struck out Manager Clarke, a hard hitter, with men on first and second. A double steal on Clark’s third strike moved the men to second and third, where they were when Wagner came to bat. Leifield was also victim on strikes in this inning, giving Mullin three strikeouts in one session. All told he struck out the visitors ten times.

Detroit scored because it was able to hit when hits spelled runs. Stange, Jennings’ youngest catcher, distinguished himself in the second inning by sending Detroit’s first two runs across the plate with a drive out of Miller’s reach. In the fourth inning Bush’s singling-double into the overflow of the crowd in left field scored another run, and it was immediately followed by another two baggers into the same place by Cobb.

The onslaughts by Detroit in the second and fourth innings drove Leifield, the Pittsburgh star left hander from the slab. He was succeeded by the veteran Phillipi, who was able to stem the Detroit tide, although they pressed him hard in the eighth inning. Eight hits were made by the Detroiters and six of those came in two innings when scores were made. Only two were wasted.

Mullin Only Star.

Beside Mullin there was no stars on the Detroit team, but their ensemble work was brilliant. Every man did the right thing at the right time. Only one fielding marred an otherwise perfect performance.

The cold apparently affected the Pittsburgh fielding far more than it did Detroit, as the National League champions put up a miserable exhibition in that department. Six errors were charged to the infield. Abstein, Miller and Phillipi each getting two. The errors detract little credit from Detroit’s performance as only one of them figured in the scoring.

The conclusive victory of Detroit topped Pittsburgh from the position as favorite in the betting. Even money is now offered.

The teams left for Pittsburgh last night where the fifth game will be played today. The sixth game is scheduled here Thursday.

Wagner Was Helpless.

Hans Wagner failed to star. At the bat he was helpless before Mullin. The first time up he drew a base on balls, but was forced out at third. In the third inning saw his memorable strike out, in the sixth he sent a hot liner to Tom Jones. In the field, he had two put outs, and four assists, but most of them were easy. His best play came in the fourth inning, when he fumbled a grounder by Stange for a fraction of a second, recovering quickly and touched second, forcing Tom Jones then threw to first in time to double up Stange. If he had fumbled the grounder for an appreciable time longer, Detroit might have had many more runs, as three runs came after the double play.

Cobb Made One Hit.

Cobb made one hit—a two-bagger—and reached first once when he was hit by Leifield. The other two times the Georgia star tried to beat out bunts in front of the plate, but Gibson threw him out both times. In the field he had only one chance and accepted that gracefully.

So thoroughly did Mullin do his work that only six balls were hit to the outfield. Three of these were safe hits, and the other three divided, two flies to Crawford and one to Cobb.

After Pittsburgh was retired one two, three in the first session, Wagner drew a base on balls in the second. Miller struck out. Delehanty then made the only error for Detroit when he fumbled Abstein’s grounder and Wagner moved to second. Willson hit to Mullin. Wagner was forced out at third. Mullin to Moriarity. Gib son was easy. Mullin to Tom Jones retiring the side.

Had an Opportunity.

PEARY GIVES OUT HIS CHARGE TODAY

ALL BASED ON THE EVIDENCE
OF SOME ESKIMOS.

Says Cook's Eskimos Declare Cook
Did Not Reach the Pole
But Turned Back.

THE ESKIMO MAP EVIDENCE

New York, Oct. 13.—The following statement of Commander Robert E. Peary, which he submitted, together with the accompanying map, to the Peary Arctic club in support of his contention that Dr. Cook did not reach the north pole, is now made public for the first time. The statement and map have been copy-righted by the Peary Arctic club.

(Entered according to act of congress, in the year 1909, by the Peary Arctic club, in the office of the Librarian of Congress, at Washington, D. C.)

Introduction By Peary.

Some of my reasons for saying that Dr. Cook did not go to the north pole will be understood by those who read the following statements of the two Eskimo boys who went with him, and who told me and others of my party where he did go. Several Eskimos who started with Dr. Cook from Anorotok in February, 1908, were at Etah when I arrived there in August, 1908. They told me that Dr. Cook had with him, after they left, two Eskimo boys or young men, two sledges and some twenty dogs. The boys were I-took-a-shoo and Ah-pe-lah. I had known them from their childhood. One was about 18 and the other about 19 years of age.

On my return from Cape Sheridan and at the very first settlement I touched (Nerke, near Cape Chalon) in August, 1909, and nine days before reaching Etah, the Eskimos told me, in a general way, where Dr. Cook had been; that he had wintered in Jones Sound and that he had told the white men at Etah that he had been a long way north, but that the boys who were with him, I-took-a-shoo and Ah-pe-lah, said that this was not so. The Eskimos laughed at Dr. Cook's story. On reaching Etah, I talked with the Eskimos there and with the two boys and asked them to describe Dr. Cook's journey to members of my party and myself. This they did in the manner stated below.

(Signed) R. E. PEARY.

(Signed statement of Peary, Bartlett, McMillan, Borup and Henson, in regard to testimony of Cook's two Eskimo boys.)

The two Eskimo boys, I-took-a-shoo and Ah-pe-lah, who accompanied Dr. Cook while he was away from Anorotok in 1908 and 1909, were questioned separately and independently, and were corroborated by Panikpah, the father of one of them (I-took-a-shoo), who was personally familiar with the first third and the last third of their journey, and who said that the route for the remaining third, as shown by them, was as described to him by his son after his return with Dr. Cook.

Notes of their statements were taken by several of us, and no one of us has any doubt that they told the truth.

Their testimony was unshaken by cross-examination, was corroborated by other men in the tribe, and was elicited neither by threats nor promises, the two boys and their father talking of their journey and their ex-

ASK W. J. GILBERT.

Parisian Sage, the Hair Grower, is Now Sold in America on Money Back Plan.

It's a mighty good thing for the women of America that Parisian Sage can now be obtained in every town of consequence.

No preparation for the hair has done so much to stop falling hair and eradicate dandruff and make women's hair beautiful as Parisian Sage.

Parisian Sage is the only certain destroyer of the dandruff microbe which is the cause of 97 per cent of hair troubles.

These pernicious, persistent and destructive little devils thrive on the ordinary hair tonics.

Parisian Sage is such an extraordinary and quick acting rejuvenator that W. J. Gilbert, who is the agent in Paducah, guarantees it to cure dandruff, stop falling hair and itching scalp in two weeks or money back.

Parisian Sage is most dauntly perfumed, it is an ideal preparation, not sticky or greasy.

It is a magnificent dressing for women who desire luxuriant, lustrous hair that compels admiration.

And a large bottle of Parisian Sage costs only 50 cents at W. J. Gilbert's and at leading druggists all over America. The girl with the Auburn hair is on every package. Made in America by Girox Mfg. Co., Buffalo, N. Y., who fill mail orders, all charges prepaid.

To go more into details: One of the boys was called in, and, with a chart on the table before him, was asked to show where he had gone with Dr. Cook. This he did, also without making any marks, and indicated the same route and the same details as did the first boy.

When he was through, Panikpah, the father of I-took-a-shoo, a very intelligent man, who was in the party of Eskimos that came back from Dr. Cook from the northern end of Nansen's Strait, who is familiar as a hunter with the Jones Sound region, and who has been in Commander Peary's various expeditions for some 15 years, came in and indicated the same localities and details as the two boys.

Then the first boy was brought in again, and with a pencil he traced on the map their route, members of our party writing upon the chart where, according to the boy's statement, they had killed deer, bear, some of their dogs, seal, walrus and musk-oxen.

The second boy was then called in and the two went over the chart together, the second boy suggesting some changes as noted hereafter.

Finally, Panikpah, the father, was again called in, to verify details of the portions of the route with which he was personally familiar.

The bulk of the boys' testimony was not taken by Commander Peary, nor in his presence, a fact that obviates any possible claim that they were awed by him.

Certain questions on independent lines from the direct narrative of the Eskimo boys were suggested by Commander Peary to some of us, and were put by us to the Eskimo boys.

Still later Commander Peary asked the Eskimo boys two or three casual questions on minor points that had occurred to him.

During the taking of this testimony, it developed that Dr. Cook had told these boys, as he told Mr. Whitney and Billy Pritchard, the cabin boy, that they must not tell Commander Peary or any of us anything about their journey, and the boys stated Dr. Cook had threatened them if they should tell anything.

The narrative of the Eskimos is as follows:

They, with Dr. Cook, Francke and nine other Eskimos, left Anorotok in Commander Peary's Sound to Cape Sabine, slept in Commander Peary's old house in Payer Harbor, then went through Rice Strait to Buchanan Bay. After a few marches Francke and three Eskimos returned to Anorotok.

Dr. Cook, with the others, then proceeded up Flagler Bay, a branch of Buchanan Bay, and crossed Ellesmere Land through the valley pass at the head of Flagler Bay, indicated by Commander Peary in 1888, and utilized by Sverdrup in 1899, to the head of Sverdrup's "Bay Flord" on the west side of Ellesmere Land.

Their route then lay out through this flord, thence north through Sverdrup's "Heuverka Sound" and Nansen Strait.

On their way they killed musk-oxen and bear and made caches, arriving eventually at point on the west side of Nansen Strait (shore of Axel Heiberg Land of Sverdrup), south of Cape Thomas Hubbard.

A cache was formed here and the four Eskimos did not go beyond this point. Two others, Kooloontingah and Inugito, went on one more march with Dr. Cook and the two boys, helped to build the snow igloo, then returned without sleeping.

(These two Eskimos brought back a letter from Dr. Cook to Francke, dated the 17th of March. The two men rejoined the other four men who had been left behind and the six returned to Anorotok, arriving May 7. This information was obtained not from the two Eskimos, but from the six men who returned and from Francke himself, and was known to us in the summer of 1908 when the Roosevelt first arrived at Etah. The information is inserted here as supplementary to the narrative of the two boys.)

After sleeping at the camp where the last two Eskimos turned back, Dr. Cook and the two boys went in a northerly or northwesterly direction with two sledges and twenty odd dogs, one more march, when they encountered rough ice and a lead of open water. They did not enter this rough ice and a lead of open water, nor cross the lead, but turned westward or southwesterly a short distance and returned to Heiberg Land at a point west of where they had left the cache and where the four men had turned back.

Here they remained four or five sleeps, and during that time I-took-a-shoo went back to the cache and got his gun which he had left there, and a few items of supplies.

When asked why only a few supplies were taken from the cache, the boys replied that only a small amount of provisions had been used in the few days since they left the cache, and that their sledges still had all they could carry, so that they could not take more.

After being informed of the boys' narrative thus far, Commander Peary suggested a series of questions to be put to the boys in regard to this trip from the land out and back to it.

These questions and answers were as follows:

Did they cross many open leads or much open water during this time? Ans. None.

Did they make any caches out on the ice? Ans. No.

Did they kill any bear or seal while out on the ice north of Cape Thomas Hubbard? Ans. No.

Did they kill or lose any of their dogs while out on the ice? Ans. No.

With how many sledges did they start? Ans. Two.

How many dogs did they have? Ans. Did not remember exactly, but something over twenty.

How many sledges did they have when they got back to land? Ans. Two.

Did they have any provisions left on their sledges when they came back to land? Ans. Yes; the sledges still had about all they could carry, so they were able to take but a few things from the cache.

From here they went west across the ice, which was level and covered with snow, offering good going, to a low island which they had seen from the shore of Heiberg Land at Cape Northwest. On this island they camped for one sleep.

The size and position of this island, as drawn by the first boy, was criticized by the second boy as being too large and too far to the west, the second boy calling the attention of the first to the fact that the position of the island was more nearly in line with the point where they had left Heiberg Land (Cape Northwest) and the channel between Amund Ringnes Land and Elle Ringnes Land.

This criticism and correction was accepted by the first boy, who started to change the position of the island, but was stopped, as Commander Peary had given instructions that no changes or erasures were to be made in the route as drawn by the Eskimos on the chart.

From this island they could see two lands beyond (Sverdrup's Elle Ringnes and Amund Ringnes Lands). From the island they journeyed toward the left hand one of these two lands (Amund Ringnes Land), passing a small island which they did not visit.

Arriving at the shore of Amund Ringnes Land, the Eskimos killed a deer as indicated on the chart.

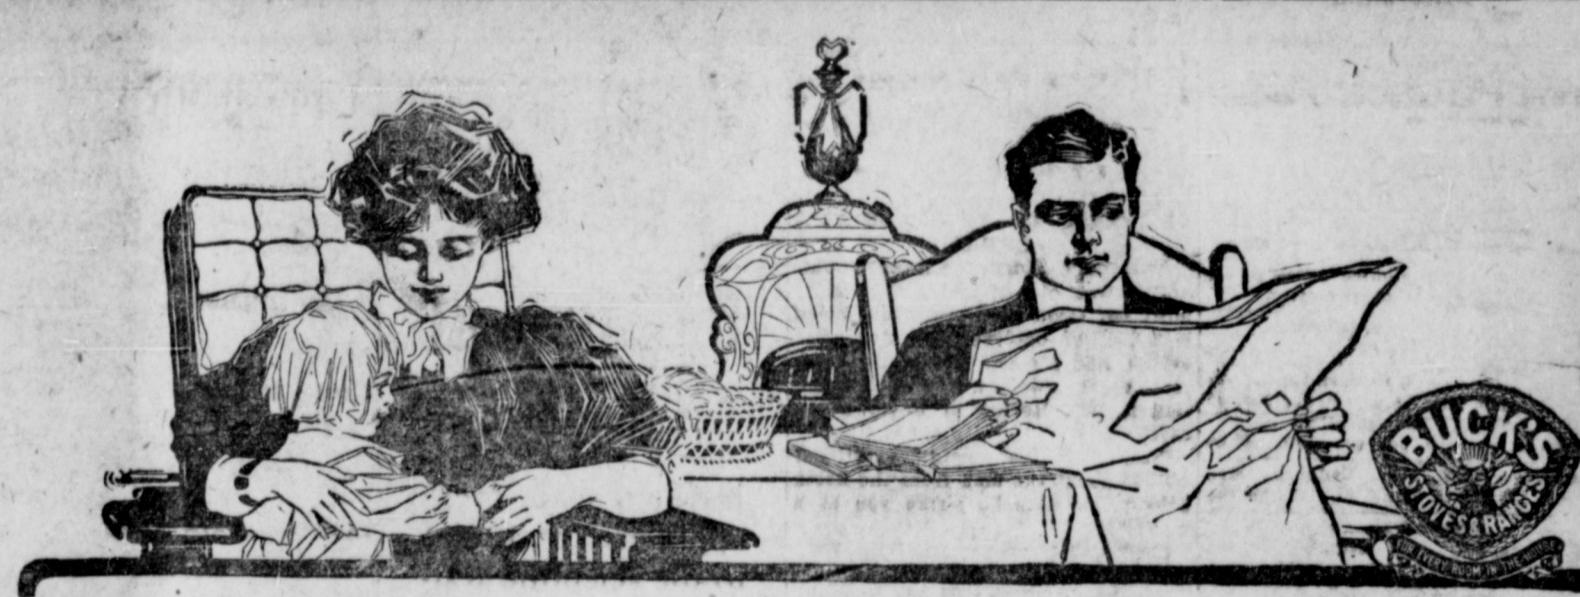

The above italicized portion of the statement of the Eskimo boys covers the period of time in which Dr. Cook claims to have gone to the pole and back, and the entire time during which he could possibly have made any attempt to go to it.

The answer of the Eskimo boys to Commander Peary's series of independent questions, showing that they killed no game, made no caches, lost no dogs, and returned to the land with loaded sledges, makes their attainment of the pole on the trip north of Cape Thomas Hubbard a physical and mathematical impossibility, as it would demand the subsistence of three men and over twenty dogs during a journey of ten hundred and forty geographical miles on less than two sledge loads of supplies.

If it is suggested that perhaps Dr. Cook got mixed and that he reached the pole, or thought he did, between the time of leaving the northwest coast of Heiberg Land at Cape Northwest, and his arrival at Ringnes Land where they killed the deer, we must then add to the date of Dr. Cook's letter of March 17, at or near Cape Thomas Hubbard, the subsequent four or five sleeps at that point, and the number of days required to march from Cape Thomas Hubbard to Cape Northwest (a distance of some sixty nautical miles), which would advance his date of departure from the land to at least the 25th of March, and be prepared to accept the claim that Dr. Cook went from Cape Northwest (about latitude eighty and a half degrees north) to the pole, a distance of four hundred and seventy geographical miles in twenty-seven days.

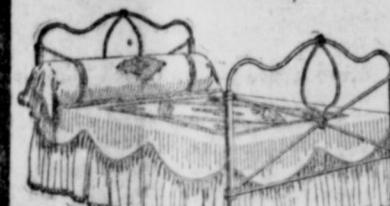

After killing the deer they then traveled south along the east side of Ringnes Land to the point indicated on the chart, where they killed another deer.

They then went east across the south part of Crown Prince Gustav Sea to the south end of Heiberg Land, then down through Norwegian Bay, where they secured some bears.

If I cease becoming better, I shall soon cease to be good.—Oliver Cromwell.

Those Pirates and Tigers have been having a strenuous time, truly. May the best team win.

Wait until Teddy reads that opinion of the Indianapolis judge in the Panama label case. Maybe there won't be a roar.

Perry has his say today. He bases his contention that Cook did not reach the pole on the statement of Eskimos, but the story is a long one and we refer you to the news columns.

Don't Barkley and Hazelpin make it warm enough in their debates to moderate the atmosphere in those chilly buildings in which the meetings are held? Their speeches read like "hot stuff."

PADUCAH AS A MARKET.

Editor Eagle:—I want to ask you to publish a few lines regarding the controversy going on now between your excellent paper and the Metropolis papers; and in these lines I would ask just a few questions, for them to solve. Why should Metropolis, or even Brookport merchants complain of people going to Paducah to trade, when said people find it to their interest? Here is a case in point—Two of our leading farmers in the Fair Play neighborhood wanted to buy together 2 bushels of timothy and 11 bushels of redtop seed. They first priced them at Metropolis and enquired also at Brookport; which was fair and proper. But feeling that the price was too high, they went to a seed house in Paducah and saved in the neighborhood of \$8—and they say this is not attributed to quality either, as better seed could not be found. Now Mr. Eagle man if you can't answer this question why ask your friend Trousdale or Editor W. E. Warr, of Metropolis papers to do so—ask them also, who is to blame for Metropolis not getting the business, when it was offered to her. —A Subscriber—Brookport Eagle.

The above, even if it did come from the Brookport Eagle, contains a lesson to some of our merchants says the Metropolis Journal-Republican. It is a fact that outside of three of our dry goods and clothing stores there is not much effort made to secure the country trade and price inducements are very seldom made in goods bought by the farming trade. We are going to keep on plugging for Metropolis, but it would help a lot if our merchants would go after the trade a little themselves and at least meet Paducah prices. You can't blame people for going to Paducah when they can save \$8 on one little order of seeds.

Until we wake up and go after business like Paducah does we are not going to get the business. Every citizen of Massac county would rather trade on this side of the river but he is not going to pay a premium to get to do it.

THE PUBLIC FORUM.

DR. COOK IS AS SIMPLE AS A CHILD.

William T. Stead, the English journalist, was one of the first men to meet Dr. Cook in Copenhagen. Stead is a trained observer of men and events, and his estimate of Dr. Cook carries some weight. In a contribution to The Review of Reviews he says:

"What about the man from the north pole? How does he strike you as a man?"

To which I answer, and I think almost all of us who went to Copenhagen would agree with me in replying, that he does not strike us as a man, but rather a child—a native inexperienced child, who sorely needed some one to look after him, and take care of him, and tell him what he ought to do in his own interest. It was really almost pathetic to see his efforts to readjust himself to the busy, bustling, new environment of modern civilization.

When we were struggling through the crowd at the landing I asked him to let me arrange for him a general interview, at which all the pressmen could be present. "Yes," he said "but put it off till tomorrow." As if the ravenous maw of the world's press, with its teeming special editions, could wait complacently for twenty-four hours before learning what he had to say! "Why this hurry?" he was always asking, with the absent air of a man who has lived six months at a time in the timeless solitude of the Arctic night. As for his inability to protect his own interests, even in matters of pounds, shillings and pence, it was almost pitiful.

And as he allowed himself to be exploited in money matters, so he displayed an almost infantile inability to see the obvious precautions which he ought to take for his own defense. I think it was this naivete that this often most exasperating inability on his part to forestall hostile criticism, to pacify ignorant but clamorous interviewers availed for "proofs" the nature of which they do not understand, that did as much as anything else to convince everybody of his honesty. He either neglected or threw away the most obvious chances. He had at his absolute disposal the most expert pens in Europe, and he rather snubbed than welcomed offers to help him. Everything that a clever rogue would do instinctively if he wished to hoax the public Dr. Cook did not do. When he was asked the questions, he answered them simply, without flinching, or dodging, or beating about the bush. Where he had made a mistake he confessed it—but as for making out a good case for himself, or of adopting any ad. captandum method of appeal, he could no more do it than a child.

A BIG CROWD
GREET NOMINEESHAZELIP AND BARKLEY SPEAK
AT MELBER LAST NIGHT.HAZELIP SHOWS THE HASTY SETTLEMENT
WITH SMEDLEY WAS COSTLY TO
COUNTY.

THE OFFICIALS NEGLECT DUTY

the treasury it was his duty to investigate, and to go slow in making a settlement. He said it was published in a Louisville newspaper that the first suit of the revenue agent showed that money for licenses was due, and that the report of Professor Smith proved money was due the county to the extent of \$16,000. Then further he said Mr. Barkley admitted he took Smedley's books in which he alleged every cent of the money defaulted on delinquent taxes had been entered.

Mr. Barkley treated the settlement exhaustively and said he had no reason to suspect Smedley was dishonest because the law did not require him to go around with a shotgun and investigate every office. He said the stealing had been going on before he went into office and other office holders had not discovered it, and he ought not to be blamed. Mr. Barkley denied that Husbands had ever served notice on the fiscal court, and therefore had no right to bring the suit. He said the bonding company stepped into Mr. Smedley's shoes and the thought it was fair to pay the 5 per cent commission.

Mr. Hazelip took up Prof. John D. Smith's report and showed that the county judge had not drawn his salary regularly, but had drawn upon the county funds whenever he left like it. During his term of office the report shows that his salary account was overdrawn frequently and that a few days before the report was made public Judge Lightfoot paid over \$1,600 into the county treasury to balance his account. Mr. Hazelip inquired of Mr. Barkley if he knew of it, and why he did not see that he did his duty, but a response was not given.

The financial condition of the county was brought forth in its true light, and by the figures Mr. Hazelip showed every fund was overdrawn and that the county would have to borrow money to tide over until the taxes for next year are received. Mr. Barkley made no defense, and said the county could borrow money.

The financial condition of the county was brought forth in its true light, and by the figures Mr. Hazelip showed every fund was overdrawn and that the county would have to borrow money to tide over until the taxes for next year are received. Mr. Barkley made no defense, and said the county could borrow money.

Last night the settlement was gone into thoroughly by both speakers. The complete story was that in September, 1908, the revenue agent discovered that Smedley had been collecting money for licenses, and not issuing any license, and that Revenue Collector Will M. Husbands discovered it. He went to Mr. Smedley, who pleaded with him not to expose it, as the Democratic primary was on and he (Smedley) paid over to the revenue agent about \$250 due on licenses. In the meantime a Louisville paper had published the fact that Smedley was not turning all the money over.

After the election Husbands advertised property on which delinquent taxes were due for sale, and then receipts began to pour into his hands. Then he filed a suit against Smedley for money due the state and county for delinquent taxes and licensees after he notified the fiscal court verbally. County Attorney Barkley was made attorney for the county in the prosecution of the suit, and his first action was to have the suit dismissed as far as the county was concerned.

Then the settlement was made with the bonding company for \$1,586.50, which will cover everything due the county, Mr. Hazelip said, because he announced he had seen the receipt and had the opinion of some of the best lawyers. Then Mr. Hazelip showed that although the state rate was lower, that Mr. Husbands had found over \$2,000 due the state for delinquent taxes. After the hurried settlement was made, Mr. Hazelip showed how the 20 per cent penalty required by law on all shortages was not demanded and that the 10 per cent interest due on the whole amount was not collected by the county officials, but that they wrote out a clear receipt for all shortages, and let the county receive \$1,266 into the treasury after Mr. Barkley received his commission of over \$300 for collecting it and allowing the bonding company a commission of 5 per cent for being so prompt to pay. By actual figures Mr. Hazelip showed the officials had closed their eyes to the interests of the county and had sold into the county treasury \$1,266 when by an exercise of their duty about \$4,000 would have been paid into the treasury. He said the desire of the bonding company to settle the shortage quickly was evidence it knew that there were more funds due. Mr. Barkley should have been aware of this.

In defense to the claim that nothing was known of the further shortcomings, Mr. Hazelip said Mr. Barkley had every reason to suspect the county was being defrauded and in his position as the "watch dog" of the county officials, but that he had not because of any interest in the issues of the campaign. The audience was orderly and gave both speakers good attention. In his speech Mr. Hazelip made a decided impression in his promise for a business like administration. Tonight the speakers will address the voters at the Hendron's school house while Thursday night the Hovekamp school house will be the center of activity.

dates are November 23 December 9,
and December 31. The Thanksgiving
German will be November 23 instead
of Thanksgiving night, as there
will be a number of visitors in the
city at that time.

Popular Barlow Couple Marry.
The marriage of Miss Margaret
Gelb Wilford and Dr. J. L. Johnson,
both of Barlow, was quietly solemnized
on Tuesday evening at 8 o'clock
at Barlow. Only the relatives and
intimate friends were present. The
couple is of prominence and popularity
in their home town and are pleasant-
ly known here. They will reside
in Barlow. Dr. Julian Dismukes, of
Paducah was an out-of-town guest at
the wedding.

**American Literature Studies Inaug-
urated.**

The Department of Literature of
the Woman's club held a delightful
meeting this morning at the club
house. It was the first departmental
meeting of the winter series. Mrs.
Muscoff, chairman, presided and in a graceful talk outlined the
study for the year in a comprehensive
summary of "Distinctive Characteristics of American Literature." Mrs. L. V. Amentrout gave a delightful review of Edward Eggleston,
the writer. Miss Lowry interestingly
featured the life and work of John
Fiske.

HANDS OUT ROAST FOR NIGHT RIDERS

SHELBY JUDGE ORDERS GRAND JURY TO INDICT THEM.

Eight Bishops Will Meet in Cincinnati to Choose Bishop McCloskey's Successor Today.

FRESH NEWS FROM THE STATE

Shelbyville, Ky., Oct. 13.—Judge Marshall's charge to the postman, which, it is safe to say, has cured more cases of eczema and skin diseases than any remedy ever offered for these ills.

The success of postman is not at all surprising when it is considered that even a very small quantity applied to the skin stops itching immediately and cures chronic cases in two weeks.

The very worst cases of eczema, as well as acne, herpes, tetter, piles, salt rheum, rash, crusted humors, scaly scalp and every form of itch, yield to it readily. Blemishes such as pimples, red noses, muddy and inflamed skin

hogsheads. No one is even asked to pur-

but he adds with strong emphasis that "no man or set of men has any right to say to any other man or set of men, you must do this or you must do that, on pain of having your barn burned or your crop destroyed."

Coercion of this character he de-

nounced as most dangerous to the peace of the Commonwealth than the man who slips into a house at night and stabs his victim to death.

Judge Marshall cited a number of outrages which had been perpetrated in various sections of Kentucky, and charged that the reason the criminals had not been brought to justice was that either a dereliction on the part of the grand jurors to their sworn duty or their sympathy with the raiders in which event he declared, with solemn emphasis, the jurors thus swayed by their personal predilections were guilty of a more heinous offense against the law than the criminals themselves.

He scouted the idea that it was prices ever paid in this country, and impossible for an intelligent grand jury to discover the identity of some Civil War.

KILL THOUSANDS AS TRESPASSERS**RAILROADS RUN DOWN AN APPALLING NUMBER.****EFFECTS WILL BE MADE TO ENFORCE LAW AGAINST GENERAL WALKING ON THE TRACKS.****47,416 IN THE LAST TEN YEARS**

Trespassing on railroad property in violation of the law has been responsible for the death of 47,416 people in the United States during the last ten years, according to a compilation made by the Pennsylvania railroad.

In the same period more than 50,000 trespassers were injured. Seven thousand trespassers were killed on the lines of the Pennsylvania itself. As the Pennsylvania reported that for the calendar year 1908 not a passenger had been killed on the 23,000 miles of its system, these figures may explain the incredulity with which similar reports were received in some quarters from the western railroads.

In view of these facts many of the important railroads have determined to redouble their efforts to secure in this country that rigid enforcement of the law against trespassing which in England has reduced the practice and accidents to trespassers to a minimum.

The number of people killed while trespassing on railroads has been steadily increasing every year. In 1899, 4,063 trespassers lost their lives on American railroads; five years later the number was 5,000, and in 1907 the number killed was 5,612, more than 15 each day.

The alarming death roll from trespassing on railroad property, which in ten years was nearly four-fifths of that suffered by the entire Union army during the Civil war, is every charged up to the railroads, it is asserted, although the people were killed as a result of their violation of the law, and under conditions over which the railroads say they have no control.

It is declared that although the co-operation of state and county authorities has been solicited the actual punishment of persons violating the trespassing laws has been infrequent. In many cases the cost of imprisonment has deterred the local courts from holding those arrested.

James A. Story, almost ninety years old, has blossomed forth as the oldest chauffeur in the United States. He took out three other men over eighty for a ride in his automobile. The combined ages of these men is 347 years, the average being about eighty-six years and nine months. The select company toured the town in fine style and the ladies seemed to enjoy it.—Cuba (N. Y.) A JOYFUL PASTIME.**IT'S REALLY A PLEASURE TO CURE CATARRH BY BREATHING HYOMEI.**

It isn't a pleasure to saturate your stomach with vile nostrums or to shock the tender membrane of the nose and throat with disagreeable sprays and douches.

But strange to say there are a few thousand people who do not keep abreast of the times, who are hoping against hope that these ancient methods will rid them of catarrh.

If the readers of the Sun who suffer from catarrh want to banish this a few days after his published declarayation that he would support the peror and empress during the summer visit of the grand duke at Wilihelmshohe. The princess, who is 19 years of age, is a second cousin of the new Hearst party no announcement to this effect has been made.

Justice Gaynor was outspoken in his expression of displeasure at Hearst's entry into the campaign

breach of faith and plighted word that I did not dream possible in this world," he said, referring to Mr. la. daughter of Prince Frederick of Saxo-Meiningen, was suggested, it is

Judge Gaynor's principal contribution to the situation today was an announcement that he had decided to serve with the Prussian artillery

ACTION TAKEN BY MEXICO GOVERNMENT TO REPLENISH SUPPLY.

Laredo, Tex., Oct. 1.—In order to replenish the depleted supply of corn in the republic of Mexico, the duty on that cereal has been temporarily rescinded.

Owing to the prevalence of severe droughts throughout the corn belt of Northern Mexico, followed later by unprecedent crops, both the growing crops and the supplies of corn in storage have been reduced to such an extent as to entail actual suffering owing to the scarcity of the article and consequent high prices. To obviate extortions prices, the Mexican government has promulgated an order temporarily admitting corn from the United States free from duty. The staple will be admitted free as long as necessity demands, and the duty will then be reimposed.

Many merchants in Mexico are telegraphing to brokers in the United States, ordering large shipments of corn, so as to avail themselves of the free entry of the cereal.

A Texas has patented a post card stand for dealers in which the cards are displayed at the ends of the spokes of a small Ferris wheel. By revolving it a customer may see all of them without handling.

PADUCAH AS THE HOST TO CAIROITES

ENTERTAIN WATERWAYS DELEGATES AT BREAKFAST.

And Then Take Them for an Automobile Ride Throughout the City.

ARE EN ROUTE TO CINCINNATI

Five of Cairo's most prominent and influential citizens, accompanied by Miss Snyder, of Canton, O., who has been visiting the family of Mayor George Parsons, arrived in Paducah at 7:25 this morning and were guests of the Commercial club at the Palmer House. They were met at Eleventh street and Broadway by Earl Palmer and Secretary S. A. Fowler and conveyed to the hotel, where an appetizing breakfast awaited them. They were entertained for a short time with an automobile ride over the city before leaving for Cincinnati, O., to attend the convention of the Ohio Valley Improvement association.

Composing the Cairo delegation were: Mayor George Parsons, vice-president of the association of Illinois; E. A. Smith, president of the Cairo Commercial club, president of the Cairo National bank and also vice-president of the improvement association; P. A. Langan, a prominent lumber dealer and chairman of the Cairo board of trade; Phil Barclay, secretary of the Cairo board of trade and vice-president of the Alexander County bank, and W. M. Hurt, manager of the Rhodes-Burford establishment at Cairo. Miss Spyder is returning to her home in Canton. She is an attractive young woman and an accomplished violinist.

Seated at the breakfast table this morning were: Mayor Parsons, E. A. Smith, P. A. Langan, Phil Barclay, W. M. Hurt, Miss Spyder, Earl Palmer, C. S. Bookwalter, S. A. Fowler, Major J. H. Aschraft and James C. Utterback. The meal was concluded at 8:30 o'clock and at 9 o'clock the Cairo delegation and Miss Spyder enjoyed an hour's ride over the city. They were impressed with Paducah's growth and the beautiful residences.

At 11:25 o'clock this morning the Cairo people, accompanied by S. A. Fowler, J. H. Aschraft, H. A. Petter and C. S. Bookwalter, left for Cincinnati to attend the waterways convention, which will be held there tomorrow and Friday.

TEACHERS WRANGLE

AT LONE OAK TAKEN TO THE COURTS.

Miss Harrison Files Suit to Oust Miss Browning, in Circuit Court.

At last the question to determine whether Miss Greenville Harrison or Miss Eleanor Browning was elected to the fourth grade of the consolidated school at Lone Oak has found its way into the courts. Miss Greenville Harrison with her brother, W. T. Harrison, has filed suit in circuit court against W. R. Davis, chairman of the division board No. 4, to force him to sign a contract with Miss Harrison, who alleges she was elected teacher of the school. Motion will be made in a few days for a trial immediately, and a warm battle is expected.

Miss Browning rests her claim on the fact that she was elected by a majority of the members present at a meeting, while at a later meeting the election was taken up again, and a tie vote resulted. Superintendent W. A. Middleton had not made bond at the time, and was present at the meeting, but could not take any part in the election. Two days later he qualified, and his first official act was to stay in his office and vote for Miss Harrison. Many people are of the opinion that neither Miss Brown nor Miss Harrison is elected regularly.

1,000 RAILROAD BUILDERS

LOSE LIVES IN THE STORM.

New Orleans, Oct. 13.—A wireless received today says at least a thousand men employed on the Florida East Coast railway were drowned in the storm. All were living in house-boats, which were sunk, the message says.

A man with a future and a woman with a past supply a lot of food for gossip.

Gossip has a thousand tongues and they all work overtime.

DAMAGE WAS LESS THAN EXPECTED

THE BRUNT OF GULF STORM WAS IN CUBA.

None of the Many Men Working On Keys Were Killed—Steamer Antilles Is Aground.

THE NEW RAILROAD IS SAFE

Key West, Oct. 13.—The East Coast railway extension steamer Sheckel arrived from Sugar Loaf, bringing the first direct news from thousands of men employed on the extension. The camps at Boacaica and Sugar Loaf were destroyed, the grade thirty miles above Stock Island badly damaged but no loss of life.

Hundreds of homeless are roaming the streets here. The war department has instructed the commander of the coast artillery companies to aid the city authorities in every way possible. Tents and bedding are being distributed by the soldiers.

A sailor lost his life at the government wharf and three members of the crew of another steamer are missing.

Very Little Damage.
St. Augustine, Oct. 13.—Vice President Beckwith of the East Coast railway said: "Not a life has been lost, and very little damage done on the extension. The line will be opened for traffic within 48 hours to Knight's Key."

Less Serious.
Havana, Oct. 13.—The effects of the storm appear considerably less serious than at first supposed. Apparently the brunt of the storm was in this vicinity.

Steamer Antilles Aground.
Houston, Tex., Oct. 13.—A wireless message to Port Arthur says: "The Southern Pacific Steamship Antilles is ashore in latitude 24°45'; longitude 79°07'. Wants assistance to float the ship and help take off passengers."

NEWSPAPER MEN ARE DISCHARGED

JUDGE HOLDS ATTEMPT TO TRY THEM AT CAPITAL OUTRAGE.

Judge Declares He Has Curiosity to Know Whether There Was Graft or Not.

ISSUED A SCORCHING OPINION.

Indianapolis Ind., Oct. 13.—Federal Judge Anderson dismissed the proceedings against Delavan Smith and Charles R. Williams, proprietors of the Indianapolis News, who were resisting removal to Washington for trial on charges of criminal libel in publishing articles alleging that there was a corrupt profit of \$28,000,000 in the sale of the Panama canal to the United States.

"That man has read the history of our institutions to little purpose," said Judge Anderson, in conclusion, "who does not view with apprehension a proceeding which will permit citizens to be dragged from their homes to the seat of government under trial under the circumstances of the case." The defendants are discharged.

"I am of the opinion," said the judge, "that the fact that certain persons are called 'thieves' and 'swindlers' does not constitute a libel per se."

"As the former president said, it is the duty of the press to print the news and tell the truth about it. It is the duty of the newspapers to draw inferences for people."

The court reviewed what it called "many peculiar circumstances about the whole Panama canal business," and added: "A great number of people thought there was something not just exactly right about that transaction, and I say for myself that I feel a natural curiosity to know what the real truth was." The committee of the senate appointed to investigate asked William Nelson Cromwell certain questions, but he stood upon his privilege as an attorney, and refused to answer.

Please DO NOT PUT ANY MORE FLOWERS ON MY GRAVE

Was the Message Brooklyn Woman Found in Cemetery.

New York, Oct. 13.—"Please do not put any more flowers on my grave" was the message on a piece of cardboard which Mrs. McDonald, of Brooklyn, found on the grave in Mount Olivet cemetery, on which for 15 years she had been placing flowers weekly.

Believing that it was the grave of a dear relative, Mrs. McDonald was indignant and protested to the superintendent of the cemetery. He looked up the records and found that her relative was really buried some distance from the grave which she had been so faithfully decorating.
